REQUESTING RECORDS

Records are retrieved by name or by some other personal identifier. It is therefore especially important for expeditious service when requesting a record that particular attention be provided to the Notification and/or Access Procedures of the particular record system involved so as to furnish the required personal identifiers, or any other pertinent personal information as may be required, to locate and retrieve the record.

BLANKET ROUTINE USES

Certain blanket 'routine uses' of the records have been established, that are applicable to every record system maintained within the Department of Defense, unless specifically stated otherwise within a particular record system. These additional blanket routine uses of the records are published below, only once in the interest of simplicity, economy and to avoid redundancy, before the individual record system notices begin rather than repeating them in every individual record system.

ROUTINE USE - LAW ENFORCEMENT

In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE - CONGRESSIONAL INQUIRIES

Disclosure from a system of records maintained by this component may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

ROUTINE USE - PRIVATE RELIEF LEGISLATION

Relevant information contained in all systems of records of the Department of Defense published on or before August 22, 1975, will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

ROUTINE USE - DISCLOSURES REQUIRED BY INTERNATIONAL AGREEMENTS

A record from a system of records maintained by this Component may be disclosed to foreign law enforcement, security, investigatory, or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of Department of Defense military and civilian personnel.

ROUTINE USE - DISCLOSURE TO STATE AND LOCAL TAXING AUTHORITIES

Any information normally contained in IRS Form W-2 which is maintained in a record from a system of records maintained by this Component may be disclosed to State and local taxing authorities with which the Secretary of the Treasury has entered into agreements pursuant to Title 5, U.S.Code, Sections 5516, 5517, 5520, and only to those State and local taxing authorities for which an employee or military member is or was subject to tax regardless of whether tax is or was withheld. This routine use is in accordance with Treasury Fiscal Requirements Manual Bulletin Nr. 76-07.

ROUTINE USE - DISCLOSURE TO THE OFFICE OF PERSONNEL MANAGEMENT

A record from a system of records subject to the Privacy Act and maintained by this component may be disclosed to the Office of Personnel Management concerning information on pay and leave, benefits, retirement deductions, and any other information necessary for the Office of Personnel Management to carry out its legally authorized Government-wide personnel management functions and studies.

ROUTINE USE - DISCLOSURE OF INFORMATION TO NARS (GSA)

Generally this includes records about agency personnel used by administrators or supervisors and not contained in the official personnel folder belonging to the Civil Service Commission (201 file), as well as supervisor's copy of records contained in the 201 file such as Standard Form (SF) 52, Request for Personnel Action, and SF 50, Notice of Personnel Action and the like.

Electromechanical accounting machine (EAM) printout created and maintained by DCPA Management Division, reflecting name of employee, organizational code, date of birth (DOB), Table of Distribution and Allowances (TDA) code number, position title, service computation date (SCD), grade, geographical indication of where employee is assigned.

EAM printout created and maintained by Personnel and Employment Service Washington, (P&ES-W) reflecting substantially the same information listed in the EAM printout described above, but also including the social security account number (SSAN), the occupational series code, and, in the case of minority employees, a one digit code (from a system created by the Civil Service Commission (CSC)) indicating which of seven minority groups the employee represents.

Files maintained by supervisors, consisting of file copies of memoranda pertaining to some aspect of a subordinate employee's work performance; includes informal minutes of conferences with such employees, attendance records, and documentations of submarginal behavior, conduct, or performance.

Authority for maintenance of the system:

5 USC 301, 44 USC 3104, 50 USC App. 2253

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Files are maintained by supervisors and are in addition to and may be duplicative of the official Civil Service Commission personnel file (201 file) which is maintained by the personnel officer and are used by supervisor or anyone in the supervisory chain to perform personnel management functions.

Files are maintained by administrative officers for reporting purposes, and for performing administrative functions assigned to them by agency instructions such as manpower strength reports, statistical reports, manpower surveys, preparation of certificates of award, identifying vacancies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Conventional EAM printouts, paper records in file folders, and forms kept in three-ring binders; all the foregoing kept in file cabinets or desk drawers, available to DCPA staff members only on a demonstrated need to know basis.

Retrievability:

Organizationally by directorate or region, then descending order by grade, and alphabetically by name.

Safeguards:

Available to DCPA staff members only on a demonstrated need-to-know basis. All buildings are secured by government guards during nonduty hours, or are locked.

Retention and disposal:

Records on individual employees are kept indefinitely and then destroyed if no longer needed for permanent record. Retained for three years when replaced, then retired or destroyed. Exception: The EAM printout created and maintained by Management Division is retained indefinitely.

Detection and Countermeasures Division, DCPA: As an inventory of all DCPA owned radioactive materials including whether on loan or in storage. Locating an item by ID number or serial number; determining custodian of an item, number of items on loan to a State, other Federal agency, contractor and others; record of license number authorizing custodian possession of material; inventory of items by radioisotope; using incapsulation date and radioisotope decay to determine activity at any given time. File may be sorted and or searched by any of items in Record-Category above. As records are updated, file incorporates in history file so that previous information remains on storage enabling a listing of all previous data in file in various Record-Categories. This permits a listing of leak test history data, listing of all storage locations and date of transfer, listing of all custodians, date of transfer, license numbers under which item was loaned. Based on expiration date of license, lists can be prepared of licenses due for renewal and overdue. Based on leak test date, lists can be prepared of items scheduled for leak testing and overdue. Items in possession of unauthorized personnel can be traced to last custodian by serial number, ID number or other available nomenclature.

Regional Offices, DCPA: Same uses as Detection and Countermeasures Division; usually limited to radioactive material on loan to States in their respective Region. For lost or unauthorized sources entire file may be searched.

State Radiological Systems Maintenance, Maintenance and Calibration Facility, State Civil Defense Office, Other Federal Agencies, DCPA Contractors and others possessing loaned material: Same as Detecttion and Countermeasures Division. Usually limited to radioactive material items on loan to the user. For lost or unauthorized sources entire file may be searched.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Computer magnetic tapes and disks, computer paper printouts.

Retrievability:

Computer file is accessible by any of the categories listed in Record Category above.

Safeguards:

Requests for computer printouts are made by other users through DCPA Detection and Countermeasures Division. Only DCPA Detection and Countermeasures Division and DCPA Computer Center have access to DCPA data on computer tapes and disks. Printouts at DCPA facilities are stored in buildings that employ security guards.

Retention and disposal:

Files are updated as changes occur. Previous data is stored in history file for historical data printouts described in Routine-Uses.

Mailing addresses of these installations are set out in a DCPA Directory which will be published as an Appendix to these notices.

Categories of individuals covered by the system:

Any citizen who desires to further his knowledge of Civil Preparedness in general, basic concepts of radiological monitoring, the duties of a local Civil Defense Director/Coordinator, or the duties of a Shelter Manager, is eligible for these courses.

Categories of records in the system:

File includes individual application forms, group enrollment forms, group completion forms, key punch cards and related computer printout indicating home study entry, progress, grades and completion, correspondence and related academic documents.

Authority for maintenance of the system:

5 USC 301, 44 USC 3101, 50 USC App. 2253, 2281.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Michigan Technological University (MTU)-Key punch cards to enter applicant into home study system and to release home study materials to applicants, and to forward certificates to applicants who successfully complete a course. Also used to prepare statistical report for DCPA Staff College.

DCPA Computer Center-use key punch cards to establish printout including name, address, student number, numerical grade for each course unit, date of completion of each course unit and final grade and date of course completion. DCPA Computer Center provides printouts for MTU, Staff college, DCPA Regions and State CD Offices.

DCPA Staff College-to respond to student inquiries relating to completion dates, requests for military reserve retirement credits and requests for certificates of completion that were awarded but did not arrive for the student. Uses MTU prepared statistics to prepare annual, quarterly and monthly reports for Director, DCPA. Provides course completion/progress data to State and local governments.

DCPA Regional Office-the DCPA Regions use the printout to measure training progress in the Region. The Regions also provide each State CD Office with monthly printouts of home study activity and completions.

State CD Offices-use the printouts to schedule more advanced training for students who have completed basic civil preparedness instruction through home study courses.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

DCPA Computer Center stores records on computer magnetic tapes or disks. DCPA Staff College, DCPA Regions, MTU and State CD Offices store printouts of records as developed and forwarded by DCPA Computer Center.

Retrievability:

Information is accessed or retrieved by name and address or Student Number.

Safeguards:

Building employs security guards. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

Retention and disposal:

All Home Study records at DCPA Staff College are destroyed after 6-years. Home Study records held by DCPA Regions, Michigan Tech University and State CD Offices are destroyed when obsolete, superseded or no longer needed.

OFFICE OF THE SECRETARY OF DEFENSE

HOW SYSTEMS OF RECORDS ARE ARRANGED. The Office of the Secretary of Defense (OSD), a Component of the Department of Defense, is located in the Pentagon. In providing immediate staff assistance and advice to the Secretary of Defense, independently organized and identified offices function in full coordination and cooperation. Therefore, the Office of the Secretary of Defense systems of records are not maintained or arranged by subject but established in functional areas of a particular responsible staff office. The Office of the Secretary of Defense includes the offices of the Under Secretaries of Defense, the Assistant Secretaries of Defense, the Assistants to the Secretary of Defense, the General Counsel, DoD, and such other staff offices as the Secretary of Defense establishes to assist him in carrying out his duties and responsibilities.

HOW TO USE THE INDEX GUIDE. To assist the reader in locating and reviewing the particular record system of interest, the various staff offices and the prefix letter symbols represented as part of the record system identification for that office are set forth below

REQUESTING RECORDS

Records are retrieved by name or by some other personal identifier. It is therefore especially important for expeditious service when requesting a record that particular attention be provided to the Notification and/or Access Procedures of the particular record system involved so as to furnish the required personal identifiers, or any other pertinent personal information as may be required, to locate and retrieve the record.

BLANKET ROUTINE USES

Certain blanket 'routine uses' of the records have been established, that are applicable to every record system maintained within the Department of Defense, unless specifically stated otherwise within a particular record system. These additional blanket routine uses of the records are published below, only once in the interest of simplicity, economy and to avoid redundancy, before the individual record system notices begin rather than repeating them in every individual record system.

ROUTINE USE - LAW ENFORCEMENT

In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE - CONGRESSIONAL INQUIRIES

Disclosure from a system of records maintained by this component may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

ROUTINE USE - PRIVATE RELIEF LEGISLATION

Relevant information contained in all systems of records of the Department of Defense published on or before August 22, 1975, will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

ROUTINE USE - DISCLOSURES REQUIRED BY INTERNATIONAL AGREEMENTS

A record from a system of records maintained by this Component may be disclosed to foreign law enforcement, security, investigatory, or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of Department of Defense military and civilian personnel.

ROUTINE USE - DISCLOSURE TO STATE AND LOCAL TAXING AUTHORITIES

Any information normally contained in IRS Form W-2 which is maintained in a record from a system of records maintained by this Component may be disclosed to State and local taxing authorities with which the Secretary of the Treasury has entered into agreements pursuant to Title 5, U.S.Code, Sections 5516, 5517, 5520, and only to those State and local taxing authorities for which an employee or military member is or was subject to tax regardless of whether tax is or was withheld. This routine use is in accordance with Treasury Fiscal Requirements Manual Bulletin Nr. 76-07.

ROUTINE USE - DISCLOSURE TO THE OFFICE OF PERSONNEL MANAGEMENT

A record from a system of records subject to the Privacy Act and maintained by this component may be disclosed to the Office of Personnel Management concerning information on pay and leave, benefits, retirement deductions, and any other information necessary for the Office of Personnel Management to carry out its legally authorized Government-wide personnel management functions and studies.

ROUTINE USE - DISCLOSURE OF INFORMATION TO NARS (GSA)

A record from a system of records maintained by this component may be disclosed as a routine use to the National Archives and Records Service of the General Services Administration in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

ROUTINE USE - DISCLOSURE TO DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

All systems of records relating to compensation, employment or retirement, or extracts therefrom, maintained by this Component may be disclosed as a routine use to the Department of Health, Education, and Welfare for the purpose of comparing such record with records of programs administered by and in the possession of the Department of Health, Education, and Welfare in order to verify information where such verification is required by law or regulation or to identify violations or potential violations of law, whether criminal, civil, or regulatory, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto.

Authority for maintenance of the system:

Title 10, United States Code, section 136(b), and Department of Defense Directive 5105.48, 'Defense Audit Service', October 14, 1976, conveys the authority for maintenance of a system of records to the Director of the Defense Audit Service in support of the DAS mission.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

INTERNAL USERS, USES, AND PURPOSES

Information is used as follows:

(1) Security Clearance notification alert; provided to all audited activities in advance of visits by DAS audit personnel. Information provided in Alert is name, SSAN, Office of Assignment, and the security clearance for each auditor.

(2) Time and Attendance Reporting; provided to DAS Main Office by 9 CONUS Regional Offices and 3 Overseas Regional Offices. Time and Attendance Reports and used by various managers to track Temporary Duty Travel Frequency and duration, to accrue manhour data on assigned audit projects, to categorize indirect time for end of year reporting to provide time and attendance data to the centralized payroll system at the Main Office. Information included in Time and Attendance Reports are SSAN, Name, Grade, Assigned Office, Hours Present for Duty, Annual Leave Hours, Sick Leave Hours, Other Leave Hours and Type, TDY Location, and TDY Duration.

(3) Planned Annual Leave Reporting, utilized by various managers for workload planning and travel scheduling. Information included is Name, Assigned Office, and dates of planned annual leave.

(4) Audit Status and Auditor Assignment Reporting; used by managers to control audits and auditors, and to maximize effectiveness of manpower resources. Included information is Audit Number, Audit Requestor Code, Title, Milestone Dates, Audit Cost Summary, Personnel Assigned/Release Dates, and Personnel Manhours Expended.

(5) As Required Personnel Reporting; used by the Staff Manager to determine training needs, promotional eligibility, education and background, professional organization participation, and performance evaluation. Information included is Name, Assigned Offices, Education, Professional Activities Training History (Course Title, Dates Attended), Performance Evaluation, Date of Birth, and Service Computation Data.

(6) Travel Reporting; used by managers to control Temporary Duty Travel, travel costs, and issuances of Blanket Travel Orders.

EXTERNAL USERS, USES, AND PURPOSES

See Office of the Secretary of Defense (OSD) Blanket Routine Uses at the head of this Component's published system notices.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Active records are stored on immediate access disk and magnetic tape maintained within the computer center. Inactive records are maintained on magnetic tape within the computer center. Hard copy records are stored in file cabinets under the control of functional users.

Retrievability:

Records are internally stored by employee SSAN and are selectively retrievable by all data elements as specified in the Categories of Records in the System.

Safeguards:

All records reside in a 'private library' which is not accessible by any other user. All system files are backed up upon creation and upon any update action. A 'Master ID' with unrestricted access to all records in the private library is available only to Main Office MIS Management Personnel. A 'Subordinate ID' which has restricted access, only to pertinent records, is used by field offices. Password protection is afforded at the session and file level. All user ID's are protected by separate validation. Any attempt to circumvent the password validation initiates immediate 'log-off.' Physical control includes limiting password to only authorized personnel. Master ID is located in a secure environment, within the Main Office, and access to the terminal facility is restricted to MIS Management employees who work within the area. Access to records containing personal data is restricted to those who require the records in the performance of their official duties and to the individual who is subject of the record (or his authorized representative). Tape files are maintained in an environmentally secure vault area when not in use. Computer Science Corporation has been cleared to process personal data for Government agencies by General Services Administration on December 11, 1975.

Retention and disposal:

Machine resident records are maintained for 2 years after they become inactive. All inactive records are afforded the same safeguards as active records and are maintained on magnetic tape within the computer center. Machine resident records are destroyed at the end of the 2 year period. Hard copy records are retained until the records are replaced or become obsolete.

System manager(s) and address:

Director, Defense Audit Service, Suite 1200, Commonwealth Building, 1300 Wilson Boulevard, Arlington, Va. 22209. Telephone: 202-697-9108.

Notification procedure:

Written or personal request for information should be addressed to the System Manager.

Record access procedures:

Procedures for gaining access by an employee/previous employee to his/her records may be obtained from the System Manager. Written request for information should contain the full name of the employee/past employee and Social Security Account Number. For personal visits, the employee should be able to identify himself/herself with Defense Audit Service Identification Card. Past employees should be able to identify himself/herself with Social Security Card and one other corroborating personal identification.

Contesting record procedures:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR 286b and OSD Administrative Instruction No. 81.

Record source categories:

Official Personnel Folder and other personnel documents, activity supervisors, applications and forms completed by the individual.

System name:

Files of Personnel Evaluated for Presidential Support Duties

System location:

Primary System-Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, Washington, DC 20301

Decentralized Segments-Designated security offices within OSD, OJCS, the Services, and service units having Presidential support duties

Categories of individuals covered by the system:

Active duty military personnel, DoD civilian employees, and DoD contractor personnel nominated for assignment to Presidential support duties

Categories of records in the system:

Nomination files of personnel nominated for assignment to Presidential support duties. Files include reports of background investigations conducted by the Defense Investigative Service or other federal government agencies, medical and commander's evaluations, and a forwarding memorandum from the originating agency summarizing the case and making recommendations.

Quarterly reports of personnel within the Presidential support program submitted by each agency involved in the program. Reports contain two parts, an alphabetical listing of those persons currently approved for Presidential support and an alphabetical listing of those persons terminated during the current quarter.

Card file of all personnel (active and inactive) in the Presidential support program. Card includes name, grade, Social Security Number, organization, dates of investigations, and the dates of forwarding action from the Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, to the Military Assistant to the President, and then back to the originating agency.

Authority for maintenance of the system:

Title 10, US Code, Section 133

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Nomination files are collected to evaluate the background, character, and qualifications of persons nominated for assignment to Presidential support duties. Files are reviewed within the Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, forwarded to the Military Assistant to the President, returned to the Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, and then returned to the originating agency.

Quarterly reports are required to insure that only those persons who have been properly cleared are utilized in the Presidential support program. Reports are received in two copies, one is retained in the Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, and one is forwarded to the Military Assistant to the President.

Card files provide a complete reference capability of all personnel involved in the Presidential support program. They are used to identify the unit of assignment of each individual and to provide a cross-reference to the dates that the corresponding nomination file was acted upon. From these dates, the appropriate forwarding memorandum can be located.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders; cards in card files.

Retrievability:

Nomination folders are not filed by the Office of the Special Assistant to the Secretary and Deputy Secretary of Defense.

Quarterly reports are filed according to the originating agency.

Card files are filed alphabetically by last name of individual considered for Presidential support duties.

Safeguards:

Nomination folders are afforded appropriate classified protection at all times and stored in safes authorized for storage of material up to Top Secret.

Quarterly reports are afforded appropriate classified protection at all times and stored in safes authorized for storage of material up to Top Secret.

Card files are stored in metal file cabinets in a locked room.

All records are accessible only to authorized personnel, who are properly trained and cleared on a strict need-to-know basis.

Retention and disposal:

Nomination files are returned to originator upon selection/nonselection.

Quarterly reports are retained for six months and then destroyed.

Card files are maintained during the entire period an individual is cleared in the program; inactive cards are maintained at least five years after termination.

System manager(s) and address:

Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, Washington, D.C. 20301.

Notification procedure:

Requests from individuals should be addressed to the Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, Washington, D.C. 20301. Visits are limited to the Office of the Special Assistant to the Secretary and Deputy Secretary of Defense.

Written requests for information should contain the full name of individual, Social Security Number, and unit of assignment within the Presidential support program.

For personal visits, the individual should be able to provide some acceptable identification, that is, drivers license, military identification card, or civilian employee or building access identification card.

Record access procedures:

Procedures for gaining access by an individual may be obtained from the following:

Military Assistant to the Special Assistant to the Secretary and Deputy Secretary of Defense
Room 3E941
Pentagon Building
Washington, D.C. 20301
Telephone: Area Code 202/695-0028

Contesting record procedures:

The Office of the Special Assistant to the Secretary and Deputy Secretary of Defense may be contacted for rules for access and contesting contents of records and appealing initial determinations by the individual.

Record source categories:

Nomination files are submitted by the agency at which the individual is nominated for assignment to Presidential support duties.

Quarterly reports are submitted by each agency with a Presidential support mission.

Card files are originated in the Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, extracting pertinent information from the nomination folders.

System name:

Files of Personnel Evaluated for Non-Career Employment in DoD

System location:

Primary Office - Office of the Special Assistant to the Secretary and Deputy Secretary of Defense, Washington, D.C. 20301.

Categories of individuals covered by the system:

Active and inactive non-career employees within DoD, personnel within and outside DoD seeking non-career employment, consultants or members of committees employed within DoD.

Categories of records in the system:

Personnel files consist of resumes, forwarding correspondence between internal offices within DoD, transmittal correspondence from individuals, industry, other departments and agencies, and the Executive/Legislative Branch of the Federal government. Correspondence consists of requests for employment or recommendations of others for employment for non-career positions, and memoranda confirming telephonic queries.

Card files consist of DoD consultants or members of committees, home and business addresses, and approval dates.

Authority for maintenance of the system:

Title 10, US Code, Section 133

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Files are collected to evaluate the qualifications of persons requesting non-career employment or persons who have been recommended by others for non-career employment within DoD. Files are reviewed from time to time in searching for qualified candidates for non-career executive level positions within DoD. Files are reviewed by authorized personnel within the immediate Office of the Secretary of Defense, and other executive level offices of the DoD Files of candidates are sent to the White House for clearance of non-career positions. Files of current non-career employees are sent to the White House for review from time to time for consideration for other possible employment.

Card files are used to record an employee's consultantships or memberships, home and business addresses, and dates of approval.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders; cards in card files.

Retrievability:

Files folders and card files filed alphabetically by last name of individual.

Safeguards:

Files are afforded appropriate protection at all times and stored in safes authorized for storage of material up to top secret. All records are accessible only to authorized personnel, who are properly trained.

Retention and disposal:

Active files are retained as long as an individual is employed within DoD. Inactive files are screened upon termination of employment with DoD to determine their retention value for possible future non-career employment, i.e., some files are destroyed upon termination of employment while other files may be retained for an indefinite period depending on the background and experience of individual.

Card files are maintained during the entire period an individual is serving the DoD as a consultant or member of a committee; inactive cards are maintained at least five years after termination.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

INTERNAL USERS, USES, AND PURPOSES

Offices of the Surgeons General of the Army, Navy and Air Force for determination of eligibility to receive health care benefits from the Uniformed Health Services Delivery System.

Office of Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS), for determination of eligibility to receive health care benefits and to receive reimbursement for health care services claimed under CHAMPUS.

Office of the Assistant Secretary of Defense (Health Affairs) and the Offices of Surgeons General of the Army, Navy and Air Force, for the conduct of health care studies and research on a longitudinal basis, and for planning, management and allocation of medical resources.

Offices of the Surgeons General of the Army, Navy and Air Force, and OCHAMPUS for dissemination of health care information.

EXTERNAL USERS, USES, AND PURPOSES

Department of Health, Education and Welfare; Veterans Administration; Federal Preparedness Agency and Commerce Department for the conduct of health care studies and for the planning and allocation of medical resources. The data will include summary data on ages, sex, residence, and other demographic parameters.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Records are maintained on magnetic tapes and discs housed in a controlled computer media library.

Retrievability:

Records about individuals are retrieved by an algorithm to be determined by contractor which uses name, enrollment number, which is not Social Security Number, date of birth, rank and duty location as possible inputs.

Retrievals are made on a summary basis by geographic location and demographic characteristics. Information about individuals will not be distinguishable in such summary retrievals.

Retrievals for the purposes of generating address lists for direct mail distribution of health care information may be made using selection criteria based on geographic and demographic keys.

Safeguards:

Computerized records are maintained in a controlled area accessible only to authorized personnel. Entry to these areas shall be restricted to those personnel with a valid requirement and authorization to enter. Physician entry shall be restricted by the use of locks, guards, administrative procedures (e.g., fire protection regulations). Exits used solely for emergency situations shall be secured to prevent unauthorized intrusion.

Personal data stored at a separate location for backup purposes shall be afforded protection at least comparable to the protection provided at the primary location.

Requirements for protection of information are binding on contractors or their representatives and are subject to the following minium standards:

Restrict access to personal information to those who require the records in the performance of their official duties, and to the individual who is the subject of the record or authorized representative. Access to personal information shall be restricted by the use of passwords which are changed periodically.

Insure that all whose official duties require access to, or processing and maintenance of, personal information are trained in the proper safeguarding and use of such information.

Retention and disposal:

Computerized records on an individual are maintained as long as the individual is legally eligible to receive health care benefits from the Uniformed Health Services Delivery System. The records are maintained for two (2) years after termination of eligibility.

Records may be disposed of or destroyed only in accordance with DoD Component record management regulations which conform to the controlling disposition of such material as set forth in 44 U.S.C. 3301-3314. Nonrecord material containing personal information and other material of similar temporary nature, shall be destroyed as soon as its intended purpose has been served under procedures established by the Head of the DoD Component consistent with the following requirement. Such material shall be destroyed by tearing, burning, melting, chemical decomposition, pulping, pulverizing, shredding, or mutilation sufficient to preclude recognition or reconstruction of the information.

DEFENSE ADVANCED RESEARCH PROJECT AGENCY

REQUESTING RECORDS

Records are retrieved by name or by some other personal identifier. It is therefore especially important for expeditious service when requesting a record that particular attention be provided to the Notification and/or Access Procedures of the particular record system involved so as to furnish the required personal identifiers, or any other pertinent personal information as may be required, to locate and retrieve the record.

BLANKET ROUTINE USES

Certain blanket 'routine uses' of the records have been established, that are applicable to every record system maintained within the Department of Defense, unless specifically stated otherwise within a particular record system. These additional blanket routine uses of the records are published below, only once in the interest of simplicity, economy and to avoid redundancy, before the individual record system notices begin rather than repeating them in every individual record system.

ROUTINE USE - LAW ENFORCEMENT

In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE - CONGRESSIONAL INQUIRIES

Disclosure from a system of records maintained by this component may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

ROUTINE USE - PRIVATE RELIEF LEGISLATION

Relevant information contained in all systems of records of the Department of Defense published on or before August 22, 1975, will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

ROUTINE USE - DISCLOSURES REQUIRED BY INTERNATIONAL AGREEMENTS

A record from a system of records maintained by this Component may be disclosed to foreign law enforcement, security, investigatory, or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of Department of Defense military and civilian personnel.

ROUTINE USE - DISCLOSURE TO STATE AND LOCAL TAXING AUTHORITIES

Any information normally contained in IRS Form W-2 which is maintained in a record from a system of records maintained by this Component may be disclosed to State and local taxing authorities with which the Secretary of the Treasury has entered into agreements pursuant to Title 5, U.S.Code, Sections 5516, 5517, 5520, and only to those State and local taxing authorities for which an employee or military member is or was subject to tax regardless of whether tax is or was withheld. This routine use is in accordance with Treasury Fiscal Requirements Manual Bulletin Nr. 76-07.

ROUTINE USE - DISCLOSURE TO THE OFFICE OF PERSONNEL MANAGEMENT

A record from a system of records subject to the Privacy Act and maintained by this component may be disclosed to the Office of Personnel Management concerning information on pay and leave, benefits, retirement deductions, and any other information necessary for the Office of Personnel Management to carry out its legally authorized Government-wide personnel management functions and studies.

ROUTINE USE - DISCLOSURE OF INFORMATION TO NARS (GSA)

A record from a system of records maintained by this component may be disclosed as a routine use to the National Archives and Records Service of the General Services Administration in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

ROUTINE USE - DISCLOSURE TO DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

All systems of records relating to compensation, employment or retirement, or extracts therefrom, maintained by this Component may be disclosed as a routine use to the Department of Health, Education, and Welfare for the purpose of comparing such record with records of programs administered by and in the possession of the Department of Health, Education, and Welfare in order to verify information where such verification is required by law or regulation or to identify violations or potential violations of law, whether criminal, civil, or regulatory, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto.

BILLING CODE 3810-70-F

UNITED STATES AIR FORCE

HOW SYSTEMS OF RECORDS ARE ARRANGED. In the Air Force, records are grouped by subject series. Each series has records about a specific activity or function to which a subject title and number is given. Systems of records are grouped in the same way. For example, a system of records on personnel security clearances may be found in 'Security - 205' and one about psychiatry in 'Medical Service - 160'. These numbers are part of the system identification (ID) which precede the notices in the Federal Register. They look like this: F20505 SPI A; F16001 SGPC A. The letter F means Air Force. The first three digits (205 and 160) show that the records pertain to Security and the Medical Service respectively; and the last two are a further breakdown of that series. The letters that follow these numbers are internal management accounting devices only. Other systems of records which differ from these examples but have similar documents may also be found in the same series.

HOW TO USE THE INDEX GUIDE. The systems of records maintained by the Air Force are contained within the subject series that are listed below. This list identifies each series in the order in which it appears in this issuance. Use the list to identify subject areas of interest. Having done so, use the series number (for example: 205 for Security) to locate the systems of records grouping in which you are interested.

REQUESTING RECORDS

Records are retrieved by name or by some other personal identifier. It is therefore especially important for expeditious service when requesting a record that particular attention be provided to the Notification and/or Access Procedures of the particular record system involved so as to furnish the required personal identifiers, or any other pertinent personal information as may be required, to locate and retrieve the record.

BLANKET ROUTINE USES

Certain blanket 'routine uses' of the records have been established, that are applicable to every record system maintained within the Department of Defense, unless specifically stated otherwise within a particular record system. These additional blanket routine uses of the records are published below, only once in the interest of simplicity, economy and to avoid redundancy, before the individual record system notices begin rather than repeating them in every individual record system.

ROUTINE USE - LAW ENFORCEMENT

In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE - CONGRESSIONAL INQUIRIES

Disclosure from a system of records maintained by this component may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

ROUTINE USE - PRIVATE RELIEF LEGISLATION

Relevant information contained in all systems of records of the Department of Defense published on or before August 22, 1975, will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

ROUTINE USE - DISCLOSURES REQUIRED BY INTERNATIONAL AGREEMENTS

A record from a system of records maintained by this Component may be disclosed to foreign law enforcement, security, investigatory, or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of Department of Defense military and civilian personnel.

ROUTINE USE - DISCLOSURE TO STATE AND LOCAL TAXING AUTHORITIES

Any information normally contained in IRS Form W-2 which is maintained in a record from a system of records maintained by this Component may be disclosed to State and local taxing authorities with which the Secretary of the Treasury has entered into agreements pursuant to Title 5, U.S.Code, Sections 5516, 5517, 5520, and only to those State and local taxing authorities for which an employee or military member is or was subject to tax regardless of whether tax is or was withheld. This routine use is in accordance with Treasury Fiscal Requirements Manual Bulletin Nr. 76-07.

Categories of records in the system:

The principal digital record maintained at each APDS operating level is the master personnel record, which contains the following categories of information: 1. Accession data - that data which pertains to an individuals entry into the Air Force. Some examples are: Place of enlistment source of commission, home of record, date of enlistment, place from which ordered to EAD. 2. Education and training data, describing the level and type of education and training civilian or military - received by the data subject, for instance: academic education level, major academic specialty, professional specialty courses completed, professional military education received. 3. Utilization data - that information which is used in assigning and reassigning the individual, determining skill qualifications, awarding Air Force Specialty codes, determining duty location and job assignment, screening/selecting individual for overseas assignment, performing strength accounting processes, etc. Examples are: Primary Air Force Specialty code, Duty and Control Air Force Specialty Code, personnel accounting symbol, duty location, up to 24 previous duty assignments, aeronautical rating, date departed last duty station, short tour return date, reserve section, current/last oversea tour. 4. Evaluation Data - data relating to various evaluations performed on members of the Air Force during their career, for example: Officer Effectiveness Report dates and ratings, Airman Performance Report dates and ratings, results of various qualification tests, an 'Unfavorable Information' indicator, and Drug and Alcohol Abuse data. 5. Promotion Data - concerning an individual's promotion history, current grade and/or selection for promotion, e.g.: current grade, date of rank and effective date; up to 10 previous grades, dates of rank and effective dates; projected temporary grade, key 'service dates.' 6. Compensation data - although APDS does not deal directly with paying Air Force members, military pay is largely predicated on personnel data maintained in APDS and provided to the Air Force Accounting and Finance Center (AFAFC) as described in ROUTINE USES below. Among these data are: Pay date, Aviation Service Code, sex, grade, proficiency pay status. 7. Sustentation data - information dealing with programs provided or actions taken to improve the life, personal growth and morale of Air Force members. In this category are such items as: awards and decorations, marital status, number of dependents, religious denomination of member and spouse, race relations education. 8. Separation and retirements data, which identifies an individual's eligibility for and reason for separation, using items such as: date of separation, mandatory retirement date, projected or actual separation program designator and character of discharge. At the central processing site (AFMPC), a number of subsidiary files or processes are operated. Although some may be called 'systems', they are in fact integral parts of APDS, and function as such. 1. Procurement Management Information System (PROMIS) - is an automated system designed to enable the USAF to exercise effective management and control of the personnel procurement personnel required to meet the total scheduled manpower requirements necessary to accomplish the Air Force mission. The system provides the recruiter with job requirement data such as necessary test scores, Air Force Specialty Code, sex, date of enlistment; and the recruiter enters personal data on the applicant - SSAN, name, date of birth, etc. - to reserve the job for him or her. 2. Career Airman Reenlistment Reservation System (CAREERS) - is a selective reenlistment process that manages and controls the numbers by skill of first-term airmen that can enter the career force to meet established objectives for accomplishing the Air Force mission. A process and to recruit and enlist the quantity and quality of prior and non-prior service centralized data bank contains the actual number, by quarter, for each Air Force Specialty Code (AFSC) that can be allowed to reenlist during that period. The individual requests reenlistment by stating his eligibility (AFSC, grade, active military service time, etc). If a vacancy exists, a reservation - by name, SSAN, etc - will be made and issued to the CBPO processing the reenlistment. 3. Airman Accessions -provides the process to capture a new enlistee's initial personal data (entire personnel record) to establish that person's personnel data record and gain it to the Master Personnel File, whereby it will add to the strength of the Air Force. The initial record data is captured through the established interface with the Processing and Classification of Enlistees System (PACE) at Basic Military Training, Lackland AFB for non-prior service; For prior service enlistees the basic data (Name, SSAN, DOE, Grade, etc) is input directly by USAF Recruiting Service and updated and completed by the initial gaining CBPO. 4. Officer Accessions - is the process whereby each of the various Air Force sources of commissioning (AF Academy, AFROTC, Officer Training School, etc.) project their graduates in advance allowing management to select by skill, academic specialty, etc which and how many will be called to active duty when, by entering into the record an initial assignment and projected entry onto Active Duty date. On that date the individual's record is accessed to the active Master Personnel File and gained to the strength of the Air Force. 5. Technicál Training Management Information System (TRAMIS) is a system dealing with the Technical Training activities controlled by Air Training Command. The purpose of the system is to integrate the training program, quota control and student accounting into the personnel data system. TRAMIS consists of numerous files which constitute 'quota banks' of available training spaces, in specific courses, projected for future use based on estimated training requirements. Files include such data as: Course Identification Numbers, Class Start and Graduation Dates, Length of Training, Weapon System Identification, Training Priority Designators, Responsible Training Centers, Trainee Names, SSAN (and other pertinent personnel data) on individuals scheduled to attend classes. 6. Training Pipeline Management Information System (TRAPMIS) is an automated quota allocating system which deals with specialized combat aircrew training and aircrew survival training. Its files constitute a 'quota bank' against which training requirements are matched and satisfied and through which trainees are scheduled in 'pipeline' fashion to accommodate the individual's scheduled geographical movement from school to school to end assignment. Files contain data concerning the courses monitored as well as Names, SSAN's and other pertinent personnel data on members being trained. 7. Air Force Institute of Technology (AFIT) Quota Bank File. This file reflects the AFIT program quotas by academic specialty for each fiscal year (current plus two future fiscal years, plus the past fiscal year programs for historical purposes). Also, this file reflects the total number of quotas for each academic specialty. Officer assignment transactions process against the AFIT Quota Bank file to reflect the fill of AFIT Quotas. Examples of data maintained are: Academic Specialty, Program Level, Fiscal Year, Name of Incumbent selected, projected, filling AFIT Quota. 8. Job File. The Job File is derived from the Authorization Record and is accessible by Position Number. Resource managers can use the Job File to validate authorizations by Position Number for assignment actions and also to make job offers to individual officers. Internal suspensing within the Job File occurs based upon Resource Managers update transactions. Data in the file includes: Position Number, Duty AFSC, Functional Account Code, Program Element, Location, and name of incumbent. 9. Casualty subsystem is composed of a number of transactions which may be input at Headquarters Air Force and/or CBPO's to report death or serious illness of members from all components. A special file is maintained in the system to record various information on individuals on whom death has occurred. Besides basic identification data unique data such as country of occurrance, date of incident, casualty group, aircraft involved in the incident and military status are recorded and maintained in this file. 10. Awards/Decorations: Awards/Decorations are recorded and maintained on all component personnel in the headquarters Air Force master files. All approved decorations are input at CBPO's whereas disapproved decorations are input at MAJCOM/HAF. A decorations statistical file is built at AFMPC which reflects an aggregation of approvals/disapprovals by category of decoration. This file does not reflect any individually identifiable data. All individually identifiable data on decorations is maintained in the Master Personnel File. Such information as the type of decoration, awarding authority, special order number and date of award are identified in an individuals record. Seven occurances for all decorations are stored; however only specific data on the last decoration of a particular type is maintained. 11. Point Credit Accounting and Reporting System (PCARS). This system is an Air National Guard/Air Force Reserve Unique supported by APDS. Its basic purpose is to maintain and account for retirement/retention points accrued as a result of participating in Drills/ Training. The system stores basic personal identification data which is associated with a calendar of points earned by participation in various elements of the Reserve program. Each year an individuals record is closed and point totals are accumulated in history, and a point earning statement is provided the individual and various records custodians. 12. Human Reliability/Personnel Reliability File: This file is maintained at Headquarters Air Force in support of AFM 35-98 and AFR 35-99. It is not part of the Master Personnel Files but a free standing file which is updated by transactions from CBPO's. The file was established to specifically identify individuals who have become permanently disqualified under the provisions of the above regulations. A record is maintained on each disqualified individual which includes basic identification data, service component, Personnel/Human reliability status and date, and reason for disqualification. 13. Variable Incentive Pay (VIP) File for medical officers: Contains about 125 character record on all Air Force physicians and is specifically used to identify whether the individual is

participating in the Continuation Pay or Variable Incentive Pay programs. Update to this file is provided by the Surgeon (AFMPC), the Air Force Accounting and Finance Center and directly from changes to the Master Personnel File. Besides basic identification data an individual's record includes source of appointment, graduate medical location status, amount of VIP or Continuation Pay and the dates of authorization and the dates and reason for separation. 15. Weighted Airman Promotion System: (a) The Test Scoring and Reporting Subsystem (TSRS) encompasses: Identifying at the CBPO individuals eligible for testing: providing output to the Base Test Control Officer and the CBPO to control, monitor, and operate WAPS testing functions; editing and scoring WAPS test answer cards at AFMPC; providing output for maintaining historical and analytical files at AFMPC and the Human Resources Laboratory (HRL) and includes the central identification at AFMPC of individuals eligible for testing. (b) The Personnel Data Reporting Subsystem (PDRS) provides for: identifying promotion eligibles at AFMPC; verifying these eligibles and selection promotion data; merging test and weighted promotion data at AFMPC to effect promotion scoring, assigning the promotion objective and aligning selectees in promotion priority sequence; maintaining projections on promotion selectees at AFMPC, MAJCOM, and the CBPO; updating these projections monthly; creating output products to monitor the flow of data in the system; maintaining promotion historical and analytical files and reports at AFMPC. (c) Basically, identification data along with time in grade, test scores, decoration information, time in service, and airman performance report history is used to support this program. 16. Retired Personnel Data System (RPDS) is made up of four files - Retired Officer Management File and Retired Airman Management File containing records on members in retired status and the Retired Officer and Airman Loss Files containing records on former retirees who have been lost from rolls, usually through death. The RPDS is used to produce address listings for the Retired Newsletter and Policy letter, statistical reports for budgeting, to manage the Advancement Program, the Temporary Disability Retired List, Agt 59 rosters for ARPC, General Officer roster, and statistical digest data for management analysis functions. Data is extracted from the master files upon retirement from Active Duty or Reserves. Data includes: Name, SSAN, Grade data, service data, Education data, Retirement data and address. 17. Separated Officer File contains historical information on officers who leave the Air Force via separation, retirement, or death. Copies are sent to Human Resources Lab and Washington offices for research purposes. The data comprises the Master Personnel Record in its entirety and is captured 30 to 60 days after separation from the Air Force. 18. Airman Gain/loss File includes data extracted from the Airman Master file when accession and separation (gains and losses) occur. This file, like the Separated Officer File, is used for historical reports regarding strength changes. Data includes Name, SSAN, and other data that reflects strength, i.e., promotions, reassignment data, specialty codes, etc. 19. Officer and Airman Separation Subsystem is used to process, track, approve, disapprove and project separations from the Air Force and transfers between components of the Air Force. This subsystem uses the Active, Guard, and Reserve MPFs. Data used includes that specifically related to separations, e.g., Date of Separation, Separation Program Designator, waivers, etc. 20. The Retirements Subsystem is used to process and track applications for and approval/ disapproval and projections of retirements. This subsystem uses the Master Files for Active Duty and Reserve officers and airmen. Data specifically related to retirements includes application data, date of separation, waiver codes, disapproval reason codes, Separation Program Designator, Title 10 United States Code section, etc. 21. Retired Orders Log is generated by the computer-produced retirement orders routine. Orders are automatically produced when approval, verification of service dates, and physical clearance have been entered in system. The orders log contains data found in administrative orders for retirement, including name, SSAN, grade, order number, effective dates, etc. The log is used to control assignment of order number, and as a cross-reference between orders, revocations, and amendments. 22. General Officer Subsystem of APDS. The General Officer Subsystem of APDS contains data extracted from the Master Personnel File and language qualification data and assignment history data maintained by the Assistant for General Officer matters. A record is maintained on each general officer and general officer selectee. The general officer files is updated monthly and is used to produce products used in the selection/identification of general officers for applicable assignments. 23. Officer Structure Simulation Model (OSSM). The Officer Structure and Simulation Model is a capability which provides officer force descriptions in various formats for existing, predictive or manipulated structures. It functions as a planning tool against which policy options can be applied so as to determine the impact of such policy decisions. The OSSM input records contain individual identifiable data from the Master Personnel Record, but all output is statistical. 24. Widow's File. This file is maintained on magnetic tape and updated by the Office of Primary Responsibility. When required, address labels and listings are produced by employing selected APDS utility programs. The address labels are used to forward the Retired Newsletter to widows of active duty and retired personnel. The listings are used for management control of the program. Contained in the file are the name, address, and SSAN of the widow. Additionally, the deceased sponsor's name, SSAN, date of death, and status at time of death are maintained. 25. Historical Files. Files with a retention period of 365 days or more are designated historical files. They consist of copies of active master files, and are used primarily for aggregation and analysis of statistical data, although individual records may be accessed to meet ad hoc requirements. 26. Miscellaneous files, records, and processes. In this category are a number of work files, inactive files with a less-than-365-day retention period, intermediate records, and processes relating to statistical compilations, computer operation, quality control and problem diagnosis. Although they may contain individual-identifying data, they do so only as a function of system operation, and are not used in making decisions about people. Civilian employment information including authorization for position, personnel data, suspense information; position control information; projected information and historical information; civilian education and training data; performance appraisal, ratings, evaluations of potential; civilian historical files covering job experience, training and transactions; civilian awards information; merit promotion plan work files; career programs files for such functional areas as procurement, logistics, civilian personnel, etc., civilian separation and retirement data for reports and to determine eligibility; adverse and disciplinary data for statistical analysis and employee assistance; stand alone files, as for complaints, enrollee programs; extract files from which to produce statistical reports in hard copy, or for immediate access display on remote computer terminals; miscellaneous files, as described in item 26, above.

For civilian employees-5 US Code 301 and 44 US Code 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The Air Force operates what is essentially a centralized personnel management system in an environment that is widely dispersed geographically and encompasses a population that is quite diverse in terms of qualifications, experience, military status and needs. There are three major centers of Air Force personnel management: Washington, D.C., where most major policy and long-range planning/programming decisions are made; the Air Force Military Personnel Center at Randolph AFB, Tx., which performs most personnel operations-type functions for the active duty components of the force; and the Air Reserve Personnel Center at Denver Co., which performs certain operational functions for the Reserve components of the force. Offices at Major Command Headquarters, State Adjutant General, and Air Force Bases perform operational tasks pertaining to the population for which they are responsible. The structure of the Air Force and its personnel management system, the composition of the force, and the Air Force's stated objective of treating its people as individuals, i.e., giving due consideration to their desires, needs and goals, demand a dynamic data system that is capable of supporting the varying needs of the personnel managers at each echelon and operating locations. It is to this purpose that the data in the Advanced Personnel Data System is collected, maintained, and used. A. ROUTINE USES WITHIN THE AIR FORCE - INTERNAL TO THE PERSONNEL COMMUNITY: HQ USAF, WASHINGTON, DC: Deputy Chief of Staff, Personnel and his immediate staff; Director of Personnel Plans; Director of Personnel Programs; Assistant for General Officer Matters; Assistant for Colonel Assignments; Reserve Personnel Division; Air National Guard Personnel Division; and The Surgeon General, the Chief of AF Chaplains and the Staff Judge Advocate, each of which perform certain Personnel functions within their area of responsibility. Data from the central data base at the AFMPC is furnished Washington area agencies by retrieval from the computer at Randolph via remote access devices and by provision of recurring products containing required management information, including computer tape files which are used as input to unique systems with which APDS interfaces. Although most of the data is used by policy makers to develop long-term plans and programs and track progress toward established goals, some individual data is provided/retrieved to support actions taken on certain categories of persons managed by offices in the headquarters e.g. General Officers, Colonels, Air National Guard personnel, etc. AIR FORCE MILITARY PERSONNEL CENTER (AFMPC), RANDOLPH AFB, TX. Personnel managers at AFMPC use the data in APDS to make decisions on individual actions to be taken in areas such as personnel procurement, education and training, classification, assignment, career development, evaluation, promotion, compensation, casualty and personal affairs, separation and retirement. AIR RESERVE PERSONNEL CENTER (ARPC), DENVER, COLORADO. Personnel managers at ARPC perform many of the same functions for the Reserve components of the Air Force as the managers at AFMPC perform for the active duty force. As with the Washington area, ARPC obtains data from the central data base at AFMPC by retrieval through remote terminals and recurring output products containing information necessary to their management processes. MAJOR COMMAND HEADQUARTERS. Standard major command headquarters personnel operations are supported by the standard content of APDS records provided them by AFMPC. In addition, there is provided in the APDS record an 'add-on area' which the commands are authorized to use for the storage of data which will assist them in fulfilling unique personnel management requirements generated by their mission, structure, geographical location, etc. The standard functions performed fall generally under the same classifications as those in AFMPC, e.g., assignment, classification, separation, etc. Non-standard usages include provisions of unique aircrew data, production of specially-tailored name listing, control of theatre oriented training, etc. Some commands use APDS data - both standard and add-on as input to unique command systems, which are seperately described in the Federal Register. CONSOLIDATED BASE PERSONNEL OFFICES (CBPO). CBPOs, which represent the base-level aspect of APDS, are the prime point of system-to-people interface. Supplied with a standard data base and system, CBPOs provide personnel management support to commanders and supervisors on a daily basis. Acting on receipt of data from higher headquarters, primarily by means of transactions processed through APDS, they notify people of selection for reassignment, promotion, approval/disapproval of requests for separation and retirement, and similar personnel actions. When certain events occur on an individual at the local level, e.g., volunteer for overseas duty, reduction in grade, change in marital status, application for retirement, etc., the CBPO enters transactions into the vertical system to transmit the requisite information to other management levels and update the automated records resident at those levels. CBPOs too are allotted an 'add-on' area in the computer record which they use to support local management unique requirements such as local training scheduling, unique locator listing, urinalysis testing scheduling, etc. B. ROUTINE USES WITHIN THE AIR FORCE - EXTERNAL TO THE PERSONNEL COMMUNITY 1. HEADQUARTERS USAF/AFMPC INTERFACES: Automated interfaces exist between the APDS central site files and the following systems of other functions: a. The Flight Records Data System (FRDS) maintained by the Air Force Inspection and Safety Center (AFISC) at Norton AFB, CA. (1) Certain personnel identification data on rated officers is transferred monthly to the FRDS. This data flow creates the basic identifying data in the FRDS, insures compatability with the APDS, and precludes duplicative data collection and input generation by the AFISC. (2) Update of the personnel data to the FRDS generates return flow of flying hour data which is used at AFMPC for rated resource distribution management. b. The Master Military Pay Account (MMPA), is the Joint Uniform Military Pay System (JUMPS) centralized pay file maintained by the Air Force Accounting and Finance Center (AFAFC) at Denver, CO. The APDS transfers certain pay related data as changes occur to update the MMPA, e.g., promotions, accessions, separations/retirements, name, SSAN, grade. These data provide criteria for the AFAFC to determine specific pay entitlements. c. The AFAFC maintains a separate pay system for Air National Guard and Air Force Reserve personnel called the Air Reserve Pay and Allowances System (ARPAS). (1) APDS outputs certain pay related data to ARPAS as changes occur, e.g., retirements/ separations, promotions, name, SSAN, grade. These data form the criteria for the AFAFC to determine specific Reserve pay entitlements. (2) ARPAS outputs data which affect accumulated point credits for Air National Guard/ Reserve participation to AFMPC for update of the Point Credit Accounting and Reporting System (PCARS), a component of APDS. PCARS also receives monthly input from Hq Air University which updates point credits as a result of completing an Extension Courses Institute correspondence program. d. AFAFC provides data on Variable Incentive Pay (VIP) for Medical Officers which is used to update a special control file within APDS and produce necessary reports for management of the VIP program. e. Air Training Command operates a system called PACE (Processing and Classification of Enlistees) at Lackland AFB TX. From that system data is fed to AFMPC to initially establish the APDS record on an Air Force enlistee. f. On a monthly basis, copies of the APDS master Personnel File are provided to the Human Resources Laboratory at Brooks AFB, TX, where they are used as a statistical data base for research purposes. g. On a quarterly basis, AFMPC provides the USAF School of Aerospace Medicine with data concerning name, SSAN and changes in base and command of assignment of flying personnel. The data reflects significant medical problems in the flying population. h. A complete printout of APDS data pertaining to an individual is included in his Master Personnel Record when it is forwarded to National Personnel Records Center. i. APDS data is provided to the Contingency Planning Support Capability (CPSC) at seven major command headquarters: Tactical Air Command, Strategic Air Command, Military Airlift Command, Aerospace Defense Command, Air Force Communications Service, United States Air Forces, Europe, and Pacific Air Forces. A record identifiable by individual's name and SSAN provides contingency and/or manning assistance temporary duty (TDY) being performed by the individual. Record is destroyed upon completion of the TDY. Statistical records (gross statistics by skill and unit) are also generated for CPSC from APDS providing force availability estimates. CPSC is described separately in the Federal Register. 2. BASE LEVEL (CBPO) INTERFACES: Certain interfaces have been established at base level to pass data from one functional system to another. The particular mode of interface depends on the needs of the receiving function and the capabilities of the system to produce the necessary data: a. The Flight Management Data System (FMDS) receives an automated flow of selected personnel data on flying personnel as changes occur. This data consists primarily of assignment data and service dates which the base flight manager uses to determine appropriate category of aviation duty which is reflected by designation of an Aviation Service Code. The FMDS outputs aviation service data as changes occur to the BLMPS. These data subsequently flow to the APDS central site files at AFMPC so it is available for resource management decisions. b. The Medical Administration Management System (MAMS), currently being developed and tested, will receive flow of selected assignment data as changes occur for personnel assigned to medical activities. MAMS will use these data to align assigned personnel with various cost accounting work centers within the medical activity and thus be able to track manpower expenditure by subactivities. c. The Automated Vehicle Operator Record (AVOR) is being developed to support motor vehicle operator management. Approximately 115 characters of vehicle operator data will be incorporated into the BLMPS data base during FY76 for both military and civilian personnel authorized to operate government motor vehicles and selected personnel data items (basic identification data) will be authorized for access by the vehicle operator managers. The base Chief of Transportation will be responsible for accuracy of this data and will be the responsible official for actions associated with the Privacy Act of 1974. d. Monthly, a magnetic tape is extracted from BLMPS containing selected assignment data on all assigned personnel. This tape is transferred to the base Accounting and Finance Office for input into the Accounting Operations System. This system uses these data to derive aggregate base manpower cost data. e. A procedure is designed into BLMPS to output selected background data in a pre-defined printed format for personnel being administered military justice. This output is initiated upon notification by the base legal office. The data is forwarded to the major command where it is input into the Automated Military Analysis and Management System (AMJAMS). f. The BLIMPS output (on an event-oriented basis) pay-affecting transactions such as certain promotions, accessions, and assignments/reassignments, to AFAFC, where the data is entered into the JUMPS. C. ROUTINE USES EXTERNAL TO THE AIR FORCE, TO THE OFFICE OF THE SECRETARY OF DEFENSE (OSD). Individual information is provided to offices in OSD on a recurring basis to support top-level management requirements within the Department of Defense. Examples are the DOD Recruiter File to the Assistant Secretary for Manpower and Reserve Affairs (M&RA), a magnetic tape extract of military personnel records (RCS: DDM(SA)1221) to M&RA, input to the Reserve Component Common Personnel Data System to M&RA, and the Post Career Data File to M&RA. 2. TO OTHER DEFENSE AGENCIES. APDS supports other components of DOD by provision of individual data in support of programs operated by those agencies. Examples are the Selected Officer List to the Defense Intelligence Agency for use in monitoring a classified training program and the Defense System Management School (DSMS) Track Record System to DSMS for use in evaluating the performance of graduates of that institution. An extract file on Air National Guard Technicians is provided the National Guard Computer Center. 3. OTHER GOVERNMENT/QUASI-GOVERNMENT AGENCIES. Information used in analysing officer/airman retention is provided RAND Corporation. Data on prior service personnel with military service obligations is forwarded to the National Security Agency. Lists of officers selected for promotion and/or appointment in the Regular Air Force are sent to the Office of the President and/or the Congress of the United States for review and confirmation. Certain other personnel information is provided these and other government agencies upon request when such data is required in the performance of official duties. Selected personnel data is provided foreign governments, US governmental agencies, and other Uniformed Services on USAF personnel assigned or attached to them for duty. Examples: the government of Canada, Federal Aviation Administration, US Army, Navy, etc.) 4. LITIGATION. Information from APDS may be used in litigation in the event that the United States, its officers, or its employees are involved in the ligigation. 5. MISCELLANEOUS. Lists of individuals selected for promotion or appointment, who are being reassigned, who die, or who are retiring are provided to unofficial publications such as the Air Force Times, along with other information of interest to the general Air Force public. Information from APDS support a world-wide locator system which responds to queries as to the location of individuals in the Air Force. Material for preparing mailing labels is furnished commercial publishing or mailing firms working under contract to the Air Force who print or mail quasi-official publications to specified portions of the Air Force population, e.g., retired personnel, widows, etc. Locator information pertinent to personnel on active duty may be furnished to a recognized welfare agency such as the American Red Cross or the Air Force Aid Society. For civilain personnel--to provide automated system support to Air Force officials at all levels from that part of the Civil Service Commission required personnel management and records keeping system that pertains to evaluation, authorization and position control, position management, staffing skills inventory, career management, training, retirement, employee services, rights and benefits, merit promotion, demotions, reductions in force, complaints resolution, labor management relations, and the suspensions and processing of personnel actions; to provide for transmission of such records between employing activities within the Department of Defense - to provide individual records and reports to the Civil Service Commission; to provide information required by the Civil Service Commission for the transfer between federal activities; to provide reports of military reserve status to other armed services for contingency planning - to obtain statistical data on the work force to fulfill internal and external report requirements and to provide Air Force offices with information needed to plan for and evaluate manpower, budget and civilian personnel programs - to provide minority group designator codes to the United States Civil Service Commission's automated data file - to provide the Office of the Assistant Secretary of Defense Manpower and Reserve Affairs with data to access the effectiveness of the program for employment of women in executive level positions - to obtain listings of employees by function or area for locator and inventory purposes by Air Force offices - to assess the effect or probable impact of personnel program changes by

simulation and modeling exercises - to obtain employee duty locations and other employee data for personnel program management purposes - to obtain employee duty locations and other information releasable under Civil Service Commission rules and the Freedom of Information Act to respond to request from Air Force offices, other Federal agencies and the public - to provide individual records to other components of the Department of Defense in the conduct of their official personnel management program responsibilities - to provide records to law enforcement or inauthorities for investigation and possible criminal prosecution, civil court action, or regulatory order - to provide records to the Civil Service Commission for file reconciliation and maintenance purposes - and to provide information to employee unions as required by negotiated contracts.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Maintained in visible file binders/cabinets, card files, on computer magnetic tapes, disks or drums, computer paper printouts or microfiche.

Retrievability:

Filed by name, Social Security Number (SSAN) or other identification number or system identifier. The primary individual record identifier in APDS is SSN. Some files are sequenced and retrieved from by other identifiers; for instance, the assignment action record is identified by an assignment action number. Additionally, at each echelon there exists computer programs to permit extraction of data from the system by constructing an inquiry containing parameters against which to match and select records. As an example, an inquiry can be written to select all Captains who are F-15 pilots, married, stationed at Randolph AFB, who possess a master's degree in Business Administration; then display name, SSN, number of dependents and duty location. There is the added capability of selecting an individual's record or certain pre-formatted information by SSN on an immediate basis using a teletype or cathode ray tube display device. High-speed line printers located in the Washington DC area, at Major Command Headquarters, and at ARPC permit the trvolume products to and for the use of Personnel managers at those locations.

Safeguards:

Records are accessed by custodian of the record system, person(s) responsible for servicing the record system in the performance of their official duties, records are accessed by authorized personnel who are properly screened and cleared for need-to-know and commanders of medical centers and hospitals. Records are stored in security file containers/cabinets, safes, vaults and locked cabinets or rooms. Records are protected by guards. Records are controlled by personnel screening visitor registers and computer system software.

Retention and disposal:

Retained in office files until superseded, obsolete, no longer needed for reference, or on inactivation, then destroyed by tearing into pieces, shredding, pulping, macerating, or burning. Preceding retention statement applies to Analog output products of the Advanced Personnel Data System. Data stored digitally within system is retained only for the period required to satisfy recurring processing requirements and/or historical requirements. Files with a retention period of 364 days or less are automatically released at the end of their specified retention period. 'Permanent history' files are retained for 10 years. Files 365 or more days old are defined as 'historical files' and are not automatically released. Retention periods for categories of APDS files are as follows: If cycle in which a program or series of programs creating output is daily, and the created magnetic tape file will be used for processing of next daily, then the retention will be not greater than 10 days. If cycle in which a program or series of programs creating output is daily, and the created magnetic tape file will be used for processing of next daily, which is also used for processing of weekly runs, then the retenfion will be not greater than 20 days. If the program or series of programs creating output is print/punch backup and the created magnetic tape file will be used for processing as required, then the retention will be not greater than 10 days. In addition, for civilian personnel at base level (CCPO), master personnel files for prospective employees are transferred to the active file upon appointment of the employee or in the event the employee is not appointed and will no longer be considered a candidate for appointment, are destroyed by degaussing-master personnel files for active employees are transferred to the separated employee history file where they are retained for three years subsequent to separation and then destroyed by degaussing. The notification of personnel action - Standard Form 50 - is disposed of as directed by the Civil Service Commission-work files and records such as the employee career brief, position survey work sheet, retention register work sheet, alphabetic and social security account number locator files, and personnel and position control register are destroyed after use by tearing into pieces, shredding, pulping, macerating, or burning-work sheets pertaining to qualification and retention registers are disposed of as directed by the Civil Service Commission - transitory files such as pending files, and recovery files are destroyed after use by degaussing-files and records retrieved through general retrieval systems

are destroyed after use by tearing into pieces, shredding, pulping, macerating, or burning. Those records at AF Military Personnel Center for the end of each fiscal year quarter are retained for five years before destroying by deletion - the separated employee file retains employee information at time of separation for five years after which the employee's record is destroyed by degaussing.

System manager(s) and address:

Deputy Chief of Staff/Personnel, Headquarters United States Air Force. Subordinate system managers are: A. Director of Personnel Data Systems, Assistant Deputy Chief of Staff for Personnel for Military Personnel, Air Force Military Personnel Center (AFMPC), Randolph AFB, TX, 78148. He is responsible for overall APDS design, maintenance and operation, and is designated the Autodmated Data Processing System Manager for all Air Force personnel data system. B. The Director of Personnel Data Systems at each Major Command headquarters for systems operated at that level. C. The Chief, CBPO, at Air Force installations for systems operated at that level. D. The Civilian Personnel officer at Air Force installations for civilian systems operated at that level.

Notification procedure:

Requests from individuals for notification as to whether the system contains a record on them should be addressed to the system manager of the operating level with which they are concerned. Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Purpose of PACE is to create an initial record for the base level personnel data system (BLMPS); to provide AFMPC with initial accession information on non-prior service enlistees provide for improved classification and assignment procedures using computer processes; provide necessary information to joint military pay system (JUMPS) and Lackland Entering Pay System (LEAPS) for establishment of military pay records; interface the data ring process to the maximum extent with other functional areas; and to standardize and simplify personnel processing for the 3700 personnel processing group (ATC), Lackland AFB, TX 78236, so that they may more effectively control record preparation, processing, and classification actions necessary to transition civilian enlistees to military status. Aptitude tests are administered; biographical history and job and assignment preferences are collected; and personal data is collected from enlistment records to establish a mechanized record necessary to support classification and assignment of trainees. Accession and update data is furnished through automatic interface to the advanced personnel data system (APDS) at AFMPC and Air Training Command, Randolph AFB, TX; to JUMPS at AFAFC, Denver, CO. and to LEAPS at accounting and finance, Lackland AFB, TX. History records are furnished monthly to the human resources laboratory (HRLPRD), personnel research division, Lackland AFB, TX, for statistical analysis and to USAF Recruiting Service/RSS, Randolph AFB, TX, for use in the enlistee quality control monitoring system. Data is used to prepare forms, processing schedules, reassignment and promotion orders, classification actions, transaction and error rosters, autodin lists, and management products necessary to administer trainees while at Lackland AFB, TX. Standard BLMPS products such as JUMPS transaction registers, strength balance reports, and suspense lists are prepared. Changes in basic data, promotions, reassignments, separations, and duty status changes are reported to APDS, JUMPS, and LEAPS as the action occurs. History records used at HRLPRD and the enlistee quality control monitoring system are augmented by additional data from APDS and technical training centers and are used to evaluate the quality of Airmen enlisted in the USAF and the effects of changes in procurement and classification policies.

Categories of records in the system:

All standard Air Force data items from the advanced personnel data system (APDS) are included in this file as well as the following unique data items: assignment vulnerability code, assignment vulnerability date, personnel gain-loss indicator, merge record status, summary indicator, professional potential index (Officer).

Authority for maintenance of the system:

10 United States Code 8034.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Information in this system is used to provide personnel resources managers with information in addition to standard APDS data that will enhance assignment actions and insure effective utilization of personnel in the Command. This file merges Officer and enlisted data to provide a total military manning picture for Air Force Systems Command (AFSC) units. It is also used to screen personnel completing minimum tours in AFSC. Resource managers use the file to identify the type of gain or loss actions pending on an individual such as intra-Command moves, promotions, changes to current duty area. The professional potential index (PPI) is used where a gross indicator of personnel quality or potential is needed such as determining parity of quality manning within field organizations, affecting future assignment actions, trackin individual board member performance in below the zone promotion boards, to insure fair consideration for below the zone candidates. The PPI provides a single quantitative representation of the whole man. The PPI is primarily based on adjusted effectiveness report data which has been adjusted for inflation, currency, period of supervision, and period of time covered by the computer file. It also includes the influence of academic and professional military education, aeronautical rating, service component, source of commission, promotion status, date of separation, and age. This data is all taken from standard personnel information files in APDS. The information helps resource managers and Commanders insure a precise quality distribution of the personnel resource necessary to accomplish the unique mission of scientific research and development of Air Force Systems Command. The data is only available to personnel resource managers and Commanders in AFSC. No other agency has access to this data, therefore, there are no routine uses of the data outside AFSC.

Categories of individuals covered by the system:

All Air Force active duty military personnel.

Air Force civilian employees.

Categories of records in the system:

Types of records listed in MCS are those associated with a locator file, i.e., the individual's name, home address, home phone, etc. Also contained are records relating to the office the individual is assigned to; their authorized and assigned grade; date they were assigned to this organization; for military personnel only, the date they will depart; who their supervisor is; and the individual's duty phone and his immediate supervisor's duty phone. This also contains training information for military and civilian personnel assigned to AFDSC. This information consists of course completions by date.

Authority for maintenance of the system:

Title 5 U.S.C. 301 Departmental Regulations; Title 10 U.S.C. 133 Secretary of Defense appointments, powers and duties; delegations by; Title 44 U.S.C. 3101 Records management by Agency heads, general duties.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The MCS system was established as a management tool to provide office managers with information concerning their overall manpower picture to aid them in scheduling workload requirements in support of this organization's assigned mission. This system also acts as a Central Locator File and also allows a variety of manpower reports to be produced. b. Anticipated users of the MCS system: (1) Commander, Air Force Data Services Center. (2) Directors and Divisions Chiefs, Air Force Data Services Center. (3) Administrative personnel assigned to the Office of Administrative/Personnel Support function, Air Force Data Services Center, and training personnel assigned to Training Team, Office of Plans and Management. (4) Civilian agencies and other government agencies. (Specific names and government branches cannot be identified since the system acts as a locator file for individuals assigned to AFDSC. Any civilian agency or government branch could request information concerning an individual in order to locate that individual at their place of duty or at home.) (5) Military and Civilian Personnel Offices assigned to the 1143rd Air Base Squadron Pentagon, Washington, D.C. c. Specific use of information by each of the users mentioned in paragraph 8b. (1) The Commander, AFDSC uses the information from the MCS system to keep informed of the current manpower authorizations within AFDSC and were individuals are assigned. This is also true for Directors and Division Chiefs in AFDSC. From this information the AFDSC workload is closely managed to meet requirements by customers that this organization supports. In addition, the Commander, Directors and Divisions Chiefs can request a variety of manpower information from this system when certain data fields are aligned. (2) The administrative personnel assigned to the Administrative personnel support function mainly use the inforrmation supplied from MCS as a Central Locator file in order to assist outside callers in locating offices and individuals of this organization. Training Person-

nel use this file to provide cost estimates for input to the annual budget preparations for this organization. (3) The information provided to civilian and government agencies would be upon request to locate an individual assigned to AFDSC. (4) Civilian and Military personnel offices are provided information in report form. In most cases this information conncerns number of personnel assigned against number authorized, or the number of personnel assigned in a particular grade. Each of these offices can request other inquiries concerning personnel for which the MCS can, in most cases, provide the answers to their questions.

Categories of individuals covered by the system:

Air Force active duty officer personnel. Officers selected for temporary or permanent promotion or appointment; officers projected as eligible for promotion or appointment consideration; civilian applicants for direct appointment in the Regular Air Force or Air Force Reserve.

Categories of records in the system:

This system of records is comprised of the following categories of information or subsystems: 1. Officer Selection Brief File. This file contains information extracted from the mechan- ized USAF Master Personnel File to include basic personnel, flying, and education data for each officer to be considered for promotion or Regular Air Force appointment by a selection board. The preselection brief is provided to each eligible officer in advance of presenta- tion to the selection board. An updated selection brief is produced about 30 days prior to board convening for actual board use. Copies of preselection briefs and selection briefs are retained on microfilm. Additionally, a record copy of documentation accepted for manual posting of updates/corrections to the officer selection brief processed for board consider- ation is retained. 2. Officer Promotions and Appointments Administrative Files. At the Air Force Military Personnel Center (AFMPC), this file includes copies of staff advisories provided to Secretary of the Air Force Board for Correction of Military Records containing promotion and appointment related information in response to specific points in an appli- cation. At AFMPC, this file includes background information and proposed responses to Congressional and high-level inquiries in the officer promotions and appointments area. This file further includes, at all levels, information and background relative to any propriety of promotion or appointment action (not qualified recommendation, withholding action, delaying action, etc.) processed. This file further includes listings of officers eligible for pro- motion or appointment consideration. 3. Regular Officer History Card File. This file contains a history card on each active duty Regular Air Force Officer and contains Name, Social Security Account Number (SSAN) Promotion List Service Date (10 United States Code (USC) 8287), Adjusted Promotion List Service Date (PLSD) (10 USC 8303 or any other provision if applicable), Source of Commission, Date of Regular Air Force Acceptance, Date of Birth, Promotion Category (Line, Medical Corps, etc.) (10 USC 8296), Base Retirement Date (10 USC 8927), permanent grade history, temporary grade history to include dates of rank, effective dates and special orders announcing the promotion, Total Active Federal Commissioned Service Date, date officer was placed on or recalled from the Temporary Disability Retired List (if applicable), Regular Air Force Lineal Position Number, Presidential Nomination Date, Total Active Federal Service as of date of Presidential nomination, any commissioned service held prior to Regular Air Force appointment (if applicable), former service numbers if member of other than the Air Force, Public Law under which officer was appointed in the Air Force, Remarks (Secretary of the Air Force Board for the Correction of Military Records correction to records, any adjustments to officer's record and reasons therefor). 4. Air Force Confirmed Nomination Lists. This file includes all Senate confirmed nomination lists for officer appointments and promotions through the grade of colonel. This file contains the only existing official signed document reflecting Senate confirmation. 5. Regular Air Force Officer Promotion List. The Regular Officer Promotion List (Lineal List) is a computer-generated product maintained at AFMPC displaying the names of all Regular Air Force officers in lineal order (descending) by promotion category by permanent grade. 6. Temporary Promotion Sequence File. This file includes a listing and work cards for any officer selected for temporary promotion, sequenced by seniority in grade (rank). 7. Reserve Promotion Administrative File. This file contains machine listings and names of officers meeting eligibility criteria for Reserve (permanent) promotion by promotion category, listings of names indicating overdue directed Officer Effectiveness Reports (OERs) and first-time deferred officers and digest files as applicable, board recorders roster, board proceedings listed by name and SSAN, selected/not selected and published list of those selected/not selected for permanent (Reserve) promotion. 8. Regular Air Force Appointment Management File. This file includes individual locator cards reflecting a Regular officer selectee's progress from selection by a board of officers to either acceptance or declination; Regular Air Force declination statements; Regular Appointment Board work rosters. 9. Reserve of the Air Force (USAFR/ANGUS) Appoint- ment Management File. This file contains information concerning civilian and military person- nel applying for or requesting appointment to commissioned officer grades in the Reserve of the Air Force (USAFR/ANGUS) as follows: (a) Individuals applying for appointment in the ANGUS component, (b) Resigned Regular Air Force officers applying within one year from date of separation, (c) Individuals applying for appointment and active duty as Chaplains or Judge Advocates, (d) Reappointment of Reserve officers upon removal from the Temporary Disability Retired List after being found fit for duty, (e) Appointment or reappointment of individuals for assignment to the Retired Reserve (further limited to individuals serving on active duty with USAF), and (f) Reserve officers of other services on active duty applying for inter- service transfer. This file includes individual case cards reflecting a person's progress from offer of appointment to either acceptance or declination, a Resigned Regular Officer Work File, an Appointment Logbook, and a file relating to precedent, unusual, or unique cases.

Authority for maintenance of the system:

Title 44 USC, Public Printing and Documents, Chapter 31, Records Management by Federal Agencies, section 3101. Title 10, United States Code, Armed Forces, Chapters 35 and 837, Appointments as Reserve Officers. Title 10, United States Code, Armed Forces, Chapter 835, Appointments in the Regular Air Force, section 8281. Title 10, United States Code, Armed Forces, Chapter 79, Correction of Military Records. Title 10, United States Code, Armed Forces, Chapter 835, Appointments in the Regular Air Force, sections 8296 and 8297.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The Air Force operates basically a central selection process for temporary promotion, of officers to grades 03 - 06, permanent promotion of Regular officers to grades 03 - 06 and all Regular Air Force appointments. As part of the temporary promotion program, major commanders are tasked to conduct secondary zone screening boards to nominate a given number of officers from their command for central consideration. Selection briefs are retained as a historical record of data presented to an officer selection board and, as such are used to validate completeness, accuracy, or omission of data reviewed by boards. Administrative files are used for research, precedence, and reference purposes. Promotion/appointment propriety files are used to monitor completeness, legality, and processing timeliness of the actions. Generally, this records system contains necessary information necessary to manage a diverse promotion and appointment program in a centralized environment. Board results to include names of selectees and statistical analysis of those results are made a matter of public record after appropriate approval of board proceedings. Results of the board are updated to the individual subject record in the Advanced Personnel Data System (APDS) after public release of the board proceedings. A computer tape used to produce the officer selection briefs is provided to a commercial contract source (ZYTRON) for production of duplicate copies of these selection briefs on microfiche by the computer-on-to-microfiche (COM) process. The names and social security account number (SSAN) of officers selected by central selection board for permanent promotion, temporary promotion to grades above captain, and Regular Air Force Appointment as well as officers to receive appointments in the Air Force requiring confirmation of such appointments by the Senate of the United States, are provided to the Office of the President of the United States for nomination and to the United States Senate for confirmation. This information will be published in the Congressional Record.

Federal Government, paid from appropriated funds. Military personnel may be included in the automated training information system, and non-appropriated funded personnel may be included in some of the installation manual records.

Categories of records in the system:

Employees identification, social security number, occupational status (series, grade level, and supervisory status), course identification, course length, category and purpose of training received, date on which training was completed, associated costs, pre-post test results, et al. Input documents for the systems include, but are not limited to completed automated forms, training reports, authorization and record, keypunched cards. The manual files are maintained in paper folders containing employee's registration and/or record of training documents. Under the Apprentice on-the-job Training Program, and similar trainee intake program manual and automated records are maintained, reflecting information pertaining to subject employee's identification, date of birth, entrance date to program, dates and nature of personnel actions which occurred during fiscal year, student progress, and statistical data which effects the numbers of apprentices in training as of a given date. Nomination forms and documents (non-automated) for centrally-administered education and training programs are maintained. The manual files contain the candidate's nomination documents, training request, enrollment and registration and other documents related to training. Manual files are maintained at Headquarter's levels and Air Force installations regarding courses conducted on their premises, or for which they sponsor, listing such things as completion dates, and course participants. Additionally, manual files are typically found at the field activities containing information regarding an employee's supervisory status, an indication as to whether or not he/she has participated in supervisory training. Files are often maintained regarding an employee's certification/recertification or demonstrated proficiency in one or more skills areas; an activity-wide annual training plan should also be maintained, as well as individual training plans. Files are also maintained regarding professional licenses held by installation personnel.

Authority for maintenance of the system:

5 USC 4103, 4118, 4115.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Officials and employees in the performance of their official duties related to the management of the civilian employee training programs, the design, development, maintenance and operation of the manual and automated system of record keeping and reporting; the screening and selection of candidates for centrally administered programs; and administration of grievance, appeals, complaints, and litigation involving the disclosure of records of the training programs. Representatives of the United States Civil Service Commission on matters relating to the inspection, survey, audit or evaluation of civilian training programs, or such other matters under the jurisdiction of the Commission. The Comptroller General or any of his authorized representatives, in the course of the performance of duties of the General Accounting Office relating to civilian training programs. The Attorney General of the United States or his authorized representatives in connection with litigation, law enforcement, or other matters under the direct jurisdiction of the Department of Justice or carried out as the legal representative of the Executive Branch agencies. Officials and employees of other Departments and agencies of the Executive Branch of government upon request in the performance of their official duties related to the screening and selection of candidates for programs sponsored by their organization. Representatives of the United States Department of Labor on matters relating to the inspection, survey, audit or evaluation of the Defense Components Apprentice training programs or on other such matters under the jurisdiction of the Labor Department. Representatives of the Veterans Administration on matters relating to the inspection, survey, audit or evaluation of the Defense Components apprentice and on-the-job training programs. The Computer Systems Group Contractor (or other such contractor) and its employees for the purpose of card punch recording of data from employee training documents. A duly appointed Hearing Examiner or Arbitrator (an employee of another Federal Agency) for the purpose of conducting a hearing in connection with an employee's grievance involving the disclosure of the records of the training programs. An arbitrator who is given a contract pursuant to a negotiated labor agreement to hear an employee's grievance involving the disclosure of the records of the Defense Component's Training and Employee Development Record system. The Senate or the House of Representatives of the United States or any Committee or sub-committee thereof, any joint committee of Congress or sub-committee of joint committees on matters within their jurisdiction requiring disclosure of the files or records of the Defense Department's civilian training program. Representatives of Education Institutions which have been awarded contracts to conduct training for Defense Components create and maintain individual training records of those who attend.

Authority for maintenance of the system:

Title io U.S.C., chapter 103; military selective service act of 1967,section 6 (50 U.S.C. App 456); 10 USC 8012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Information collected is for the purpose of recruiting and qualifying a candidate for acdeptance as an AFROTC cadet, continuing the cadet in the program and awarding an Air Force commission. Each detachment, located at its host institution, is the routine user for the members in its particular program. AFROTC, Maxwell AFB, AL, is a user by exception, that is, data is requested from the routine user if there is an aberration in the qualification of an individual for acceptance, continuation or graduation from the ROTC program. AfROTC execises waiver authority that enables deserving individuals to remain in the program on a conditional basis if they perform below standards. AFROTC also requests data for disenrollments, changes in categories and graduation dates. Additionally, AFROTC requests data from the routine user for congressional inquiries, special projects, awards, honors and inter-service ROTC transfers. Air University (AU), as a Major Command, supervises execution of laws, plans and policies relating to AFROTC, as such, AU requires information in exercising its Command and Control function, i.e., Major Command inspections, waiver authority, and data reporting to superior agencies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

The life-cycle of the records begins with the application and testing of the candidate. Documents establishing qualification and satisfaction of criteria along with contracts and allied documents establish the cadet record. Progress documents, counseling sheets and performance records are maintained until graduation and commissioning. Finally, the records are destroyed one year after commissioning. An exception to the one year retention is the record of a disenrolee, one who does not complete the program nor receive a commission. Under these circumstances, the cadet record is maintained for three years. Further disposal of records is by burning, pulping or tearing into pieces.

Retrievability:

Records are retrieved by name, social security number and detachment number as paper records in file folders.

Safeguards:

Safeguards are storage in file cabinets that are accessible to the detachment staff and the individual concerned. AFROTC employs a locked rotary diebold power file and file cabinets accessible to the staff.

Retention and disposal:

Records are destroyed by standard means one year after a cadet is commissioned. Disenrolled cadets: records are retained for three years and then destroyed by tearing into pieces, mascerating, or burning.

F05002X0J ED A

System name:

05002X0J ED A Community College of the Air Force Student Record System

System location:

The system is centrally administered by the Community College of the Air Force (CCAF), Lackland AFB TX 78236. Computer processing for the system is furnished by the Air Training Command Directorate of Data Automation (HQ ATC/ACD), Randolph AFB TX 78236 Microfiche for the system are created by the USAF Security Service (HQ USAFSS/DADS) Kelly Air Force Base, TX 78243

Categories of individuals covered by the system:

The system may have a record for any person who has a social security number and who has since 1 January 1968 completed a formal course of instruction conducted by one of the Air Force schools identified in the current Community College of the Air Force General Catalog. (Note: Such courses do not include pre-commissioning courses and courses conducted exclusively for officers or their civilian counterparts.) The system also includes records reflecting Air Force courses completed before 1968 and other educational accomplishments for persons who as enlisted members of the Air Force registered in programs of study leading to credentials awarded by the college. (Note: Both here and where appropriate below, the general term Air Force should be understood as including the regular Air Force, the Air Force reserve, and the Air National Guard.)

Categories of records in the system:

The college originates and maintains individual academic records and, where necessary to serve Airmen registered in study programs leading to credentials awarded by the college, maintains a variety of source or substantiating records such as copies of registration applications and document control records derived from such applications; civilian college transcripts; college level examination program score reports; copies of educational records originated by other Air Force and non-Air Force agencies external to the college (such as the Federal Aviation Agency, the United States Armed Forces Institute, and the Defense Activity for Non-traditional Education Support); copies of a variety of Air Force personnel records (such as documents derived from master records maintained by the USAF Military Personnel Center and microfiche records of locator data); and records of credentials awarded to graduates. As necessary to manage the day-to-day operations and to plan development of the record system the college also maintains copies and related records of communications from, to, or regarding persons interested in the college, its educational programs, its student record system, and related matters. Copies of and statistical records derived from individual responses to surveys, questionnaires, and similar instruments authorized by HQ USAF may also be maintained as needed for managerial evaluation and planning by officers of the college.

Authority for maintenance of the system:

44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Records originated in the system serve the purpose of documenting, in terms of credit awarded or accepted in transfer by the college, individual educational accomplishments which satisfy curricular requirements of study programs leading to credentials offered by the college. Transcripts of records originated in the college are at the written request of persons concerned furnished to any recipient(s) designated in such requests. Such recipients typically include Air Force Education Services Centers, other offices where Air Force personnel are stationed, educational institutions, and potential or current employers. CCAF transcripts and copies of other records originated in the college are typically used to support educational and occupational counselling, planning, and development; admission to other colleges; and related individual affairs. Other disclosures of personal records originated in or maintained by the college may without the knowledge or written consent of persons concerned be made to Air Force officers, enlisted personnel, and civilian employees directly involved in administering or supporting the educational programs offered or records managed by the college; other Air Force officers, enlisted personnel, and civilian employees who provide educational and related services to Air Force personnel; officers and employees of other agencies as may be necessary to comply with proper requests for records under the Freedom of Information Act (5 USC 552, as amended by Public Law 93-502); and to officers and employees of other agencies as may be necessary to overcome extended interruptions in normal computer processing. Similar incidental disclosures of information recorded in the system may be made to employees of Honeywell, Inc., and other civilian contractors who may be engaged by the Air Force to to provide services which directly or indirectly support the record system.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Permanent student records are maintained on and reproduced as necessary from microfiche created by computer processing. Microfiche are maintained in special filing stands and in special three-ring binders. Computer records are maintained on and as necessary reproduced from magnetic media (tape and disk) which when not in use are filed in special cabinets and racks in a library facility. Paper records are maintained in file folders, card files, and conventional cabinets, and in special binders and cabinets designed for computer listings.

Retrievability:

Computer records are retrievable by a combination of social security number (SSN) and certain letters of last name. Microfiche records are retrievable by SSN exclusively. Paper records are retrievable by either SSN or name. Note as may be necessary to support managerial studies by the college staff, computer records may also be retrieved in groups where such records bear common information.

Safeguards:

Records maintained in the college are normally disclosed only upon written request from the persons whose records are to be disclosed or upon written request from an Air Force officer or employee responsible to provide educational or related services to Air Force personnel. Disclosures to non-Air Force agencies not requested by the individual are made only with consent of an officer of the college and as consistent with the Privacy Act of 1974 and the Freedom of Information Act. Except for disclosures within the college as may be necessary to its operations, requests by telephone and other unwritten means will not be honored unless in the judgment of a responsible member of the college staff the requestor is a member or employee of the Air Force acting on behalf of, or is, the person whose record is requested. Special care is exercised to ensure complete identification of the requestor, the person whose record is to be disclosed, and intended use. Other systematic safeguards to ensure integrity of records include secure storage of successive generations of computer master files, existence and long term retention in other Air Force agencies of records which would be needed to rebuild the entire system in the event of catastrophe, and traditional measures to ensure the security of Air Force facilities. All records in the system are during duty hours attended by responsible Air Force personnel and during non-duty hours stored in locked facilities under constant or periodic surveillance by Air Force security police or comparable civilian guards.

Retention and disposal:

Retained in office files until superseded, obsolete, no longer needed for reference, or on inactivation, then destroyed by tearing into pieces, shredding, pulping, macerating, or burning. Rules for retention of permanent microfiche and corresponding magnetic tape records have not yet been determined. It is anticipated that such records may need be retained for not less than 30 and not more than 50 years beyond the latest entries on each such record. Transitory computer records (such as input transaction records and records on successive generations of master files) are typically retained only so long as they may be useful, which may be as little as 48 hours or as much as 60 days. Active master file records are by their nature evolutionary and are typically retired within 180 days of a person's separation or retirement or five years after the most recent entry on a given record. (The last rule applies to persons who were not enlisted Air Force members when the last entries on their records were made.) Paper records maintained to serve students registered in study programs are retained so long as a registrant remains active in his or her program. Such records are destroyed one year after a registrant completes his or her study program or three years after the most recent communication from an airman whose program has not been completed. Other records are retained only so long as they may serve a useful purpose, which is typically between 30 and 90 days. No rule has yet been established for retaining records which verify awards of credentials by the college, but it is expected that such records will need be archival.

Nominees for Air Force Academy appointment and cadets in training at the Air Force Academy for each Member of Congress, the Vice President, Governors of Territories, and all other nominating sources.

Categories of records in the system:

DD Form 1870 - 'Nomination for Appointment to the United States Air Force Academy, Military Academy, Naval Academy' containing nominee's name, address, date of birth, social security number, telephone number, temporary address (if any), type of nomination (principal or competitive), numbered vacancy, and date submitted, name and signature of Member of Congress or other authorized nominating source submitting the nomination; AFHQ Form 0-339 - 'Air Force Academy Nominee Record' Description of data contained on AFHQ Form 0-339 - The names of the nominees of each Member of Congress, the Vice President, and other authorized nominating sources. (Each Member may nominate a total of ten for each vacancy available.) The card also indicates whether a nominee withdraws from consideration for Academy appointment or if he is medically disqualified and the nominating system used by the nominating authority; - 'Chargeable and Nonchargeable Air Force Academy Appointment Record' Data maintained thereon: The names of the cadets entering each year for each Member of Congress and other nominating sources indicating charge or not charged to their quota (5 allowed at any one time - 10 United States Code (USC) (9342), year of scheduled graduation or separation date and reason, and reapportionment actions; - 'Report of Separation from the United States Air Force Academy' Data contained thereon - Name, cadet number, scheduled graduation date, reason for separation, name of congressional sponsor and whether the separation action provides an additional vacancy for the Congressional sponsor; - 'Report of United States Air Force Academy' containing spaces to insert names of cadets in training who are charged to the quota of a Member of Congress.

Authority for maintenance of the system:

Title - 10 USC - Armed Forces - Chapter 903, United States Air Force Academy 9342, 9344, 9345; and Senate Resolution 154, 10 June 1963 and 10 USC 8012 .

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

When separation of a cadet from the Academy occurs, the system is used by Cadet Branch Personnel to determine who nominated the cadet so that notification of the separation of the cadet can be made to the Congressional sponsor. Also used in making reply to any Member of Congress who requests information concerning who nominated a cadet for Academy entrance (10 USC 9342(h)). / //A form is/ maintained annually on each Member of Congress, the Vice President, and other authorized nominating sources. Upon receipt of nominations from Members of Congress , only the name of the nominee is entered on the Form and the nominating system used by the member. The form is used to indicate withdrawal of a nominee or medical disqualification in order to determine the number of active candidates at any given time (10 allowed per vacancy (10 USC 9342)). Cadet Branch personnel use to answer inquiries from nominating sources. An AFHQ Form 0-851 (card) is maintained on each Member of Congress, the Vice President, and other authorized nominating sources. Upon entrance of each new class to the Air Force Academy, the names of the cadets entering for each Member of Congress, etc. is posted to the individual Congressional sponsor's card. This record card is used by Cadet Branch personnel to determine the number of vacancies available to all authorized nominating sources so that notification of vacancy information can be furnished to Members of Congress annually. Upon separation of an Academy cadet, the name is crossed out and a notation made of the date of graduation/separation and reason for separation. Another form is used as an attachment to a letter of notification to the Congressional sponsor when a cadet is separated. - Upon special request from Member of Congress, another form is used to provide the names of charge cadets (principals) to their authorized quota and the year of scheduled graduation. Also used to notify new Members of Congress of the chargeable cadets upon entering Congress. Cadet Separation Case Files - A cadet separation case file is maintained on every cadet separated for the period of time his class is in training and for one year after class graduation, then destroyed since these records are maintained permanently by the Air Force Academy. The case files are maintained since this office is the responsible staff office for implementing the Secretary of the Air Force instrument of separation/discharge action. The case files are further used to reply to Congressional inquiries concerning separation actions. The data contained in the separation case file are: copy of cadet's resignation/separation action; copy of Academy Superintendent's letter to Secretary of the Air Force containing recommendation on type of separation action; copy of Secretary of the Air Force Memorandum directing type of separation; copy of 'Report of Separation from United States Air Force Academy'; copy AF/DPPA notification letter to Congressional sponsor concerning separation; copy of AF/DPPA notification letter to United States Air Force Academy Commandant of Cadets effecting the decision of the Secretary of the Air Force; copy of, 'Disenrollment From Officer Candidate-Type Training.' (Prepared by Commandant, Air Force Academy); copy of, 'Armed Forces of the United States Report of Transfer or Discharge.' (Prepared by Commandant, Air Force Academy); copy of Special Orders effecting separation/discharge action. Information in the record/records system is used to provide information to Members of Congress, the Vice President, District of Columbia Delegate, Governors of Territories and South American Republic countries and the Philippines on candidate nominations, cadet vacancies, appointments, and separations.

F06005 XOOFF A

System name:

06005 XOOFF A Air Force Operations Resource Management Systems (AFORMS).

System location:

Headquarters United States Air Force and major command headquarters. Air Force Inspection and Safety Center, Norton Air Force Base, CA 92409. Consolidated flight record custodians at Air Force installations.

Categories of individuals covered by the system:

Air Force active duty military personnel. Army, Navy and Marine Corps active duty military personnel. Air Force civilian employees. Air Force Reserve and Air National Guard personnel. Exchange Officers. who are assigned to aviation duties by competent authority are attached to the USAF for flying support or who have been suspended from flying duties for a period of not more than 3 years.

Categories of records in the system:

The base-level AFORMS data base contains a master file of flying records for each individual, in categories listed above,a month-to-date transaction file and a twelve month history file. A centralized file of selected information from each individual's master record is also maintained at HQ USAF. In addition to automated data files, this system uses manual files for maintaining historical data and important source documents. An Individual Flight Record Folder (IFR) is established for each category of fliers listed above and is the prime repository for a monthly computer listing which itemizes each indi-

vidual's flight accomplishments during the month as well as various source documents which serve to validate information entered into the computer data base for the system. Each flight management office maintains a file of Military Pay Orders to provide source documentation of flying pay actions initiated by the flight manager. Information which is maintained in the automated files is derived directly from the AFORMS master file or from subsequent processing of information entered into the master file. Categories of information maintained in the master file are: IDENTIFICATION DATA - provides individual identifiers and other information directly related to each individual in the file. DUTY ASSIGNMENT DATA - Includes information such as the major command of assignment for the individual, the Air Force Specialty Code indicating professional duties, the unit, consolidated flight record custodian, base of assignment, etc. AIRCREW TRAINING AND QUALIFICATION DATA - includes information such as flight and ground professional flying training accomplishments, aircrew qualification status, physical status for flight duties, types of aircraft assigned, etc. UTILIZATION MANAGEMENT DATA - Includes flying experience information, professional qualifications, aviation duties assigned, etc. FLYING PAY ENTITLEMENT DATA - Includes information needed to administer the payment of flying incentive pay for each individual. LOCAL USE DATA - contains information used by major or local command to supplement general system information as needed to meet unique unit requirements within the categories of information listed herein. SYSTEM CONTROL DATA - Contains computer data used to automatically control internal system functions.

Authority for maintenance of the system:

(A) 37 USC 30 (B) Public Law 92-204, section 715.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The AFORMS provides information and automated data processing capabilities used to manage and administer Air Force operations such as aircrew training and evaluation, flight scheduling functions, flying safety and related functions needed to attain and maintain combat or mission readiness. All information is entered into the system by flight managers at the airbase level. This information is then processed for use by flying resource managers at all levels through periodic computer product reports or automated systems interfaces. The specific uses of information and user categories for this system are: BASE LEVEL ACTIVITIES - (1) to establish each member's flying pay entitlement status and to monitor continuing entitlement in accordance with existing directions; (2) to record each individual's flying activities, both hours and specific events, and provide indications of successful attainment of standards or deficiencies; (3) to establish each individual's Aviation Service code for use in indicating type of flying activity or reason for inactive status if applicable; (4) to determine each rated member's eligibility to perform operational or proficiency flying in accordance with existing USAF directives; (5) to provide an indication of each rated member's total operational flying time in terms of total aviation career duties as required by the Aviation Career Incentive Act of 1974; (6) to establish 'suspense lists' for use in scheduling flying personnel for flights, schools, tests and similar events directly related to their duties as professional airmen; (7) to provide each applicable individual and manager with all aviation career profile information needed to monitor flying career development, professional qualifications and training deficiencies; (8) to provide information requested by Operations, or other base functions, which relates to the flying duties and accomplishments of all personnel in the file; (9) to provide statistical data for management analysis and review of all aspects of each base's flying programs, including flying safety data involving AFORMS flying hour/individual information stored in the Norton AFB flying safety data bank maintained by the USAF Inspection and Safety Center. OTHER BASE USERS: CONSOLIDATED BASE PERSONNEL OFFICE - uses information provided by this system, through an automated data interface, to report the flying status of all individuals in the files; provides flying career background information used for assignment actions. ACCOUNTING AND FINANCE OFFICE - uses Military Pay Orders, prepared by flight management offices, to start and stop flying incentive pay in accordance with each individual's flying status and eligibility as reflected by the information in the system; uses the files to perform payment audits to identify individuals being paid improperly. BASE SUPPLY uses flying status information to determine which individuals are qualified to draw all authorized flying equipment. BASE MEDICAL FACILITY - uses system data to determine projected workloads associated with scheduled flight physical examinations. MAJOR COMMANDS - use all system data to measure the effectiveness of subordinate unit training programs and to check command-wide flying effectiveness. AIR FORCE MILITARY PERSONNEL CENTER - uses AFORMS information to establish assignment objectives and career development programs for USAF military personnel in the system. USAF INSPECTION AND SAFETY CENTER - uses flying hour data for each individual to establish historical files for reconstruction of lost or damaged records and to augment the Flying Safety statistical data bank. HQ USAF - uses various identification and flying data to establish statistical data needed to verify the effectiveness of standard procedures, determine the need for policy modification, provide a timely and accurate census of various types of flyers and provide a centralized point for collection and collation of data used by all levels of management.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Maintained in file folders and on computer magnetic tapes.

Retrievability:

Filed by Name and Social Security Number (SSN).

Safeguards:

Records are accessed by custodian of the record system, by person(s) responsible for servicing the record system in performance of their official duties and individuals in files. Records are stored in locked cabinets or rooms.

Retention and disposal:

Magnetic tape and hardcopy records are maintained in consolidated flight record files for three years following suspension of an individual from flying status. At the end of that period the magnetic tape records are Destroyed by tearing into pieces, pulping, burning, shredding or macerating and the hardcopy files turned over to the individual. Personnel leaving military service are provided their hardcopy files and all tape records are routinely erased. For deceased personnel, tape records are routinely erased and hardcopy folders are provided to the survivors as part of the individual's personal effects.

Compiled for the use of military security access granting authorities to grant, deny, or continue individual access to classified material. Also compiled for military commanders to use in granting access to military installations and to use in granting or denying enlistment, appointment, or employment. Since October 1972 and the establishment of the Defense Investigative Service (DIS), AFOSI has not conducted normal background investigations except in certain overseas areas in support of DIS. However, HQ AFOSI serves as a repository for those normal background investigations conducted prior to Octber, 1972. AFOSI conducts security investigations on personnel requiring regular access to US military installations, on the prospective alien spouses of military personnel overseas and on USAF military and civilian employees as a result of complaints or referrals from other agencies. While these complaints may be short of actual criminality, they are of security interest to the USAF and they raise questions as to the suitability and risks of permitting continued access to classified material. Furnished to DIS, US Civil Service Commission, Federal Bureau of Investigation(FBI), Central Intelligence Agency(CIA) , and other federal agencies for inclusion in background investigations for use in granting access to classified material. Furnished to the FBI and other federal and military agencies for use in investigations for law enforcement purposes.
